WEGHORST FOUGHT THE OFFICERS

He Was Drunk and Driving Too Fast Down Town.

Fred W. Weghorst, a grocer at 64 Buchanan street, was arrested yesterday by Crossing Patrolmen Moore and Lyons. He is charged with drunkenness and resisting officers. Moore hailed Weghorst, who, he thought, was driving too rapidly. Instead of checking his team Weghorst drove ahead and attempted to run the officer down. Moore grabbed the reins and jumped into the wagon. Weghorst fought him off, but Moore managed to get his wrists manacled. The prisoner would not subside, however, and Moore was in a dilemma. His hands were both engaged in holding the prisoner so that he could not drive. A motor man saw the difficulty, and as he passed Lyons's station at Meridian street, shouted to him that his partner needed help. Lyons boarded a car and rode to Pennsylvania street, when he at once jumped into Weghorst's wagon and drove to the station house. The police say they that have had trouble with Wegorst before, as he refused to obey the fast driving ordinance.

A World's Fair Souvenir.

The truth of the adage that large bodies ove slowly is exemplified in the delivery awarded by the commissioners of the World's Columbian Exposition. Though more than delivered to those entitled to them. The first to receive them in this city were T. A. Randail & Co., publishers of the Clay Worker. The diploma is a work of art. It is a fine steel engraving, 18x33 inches, printed on parchment. The medal is of bronze, three inches in diameter and mounted in a specially made plush-lined aluminium case, cially made plush-lined aluminium case, on North fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although one of his ears how the fatally injured, although the fatally injured, although the fatally injured.

SUIT AGAINST THE CITY.

the Proper Benefits-Another Example of Usurious Interest.

Helen N. Ayers, widow of L. S. Ayers, brought suit against the city yesterday for \$5,000 damages. The suit is really an appeal from the action of the Board of Works in passing a resolution and awarding benefits and damages in opening Seventeenth street from Meridian to Illinois street. Mrs. Ayers claims that the opening of the street cuts her property, now known as Wildwood Park, in the middle, and in such a manner Seventeenth street that will be of little or no value. The street is to be forty feet wile, and is between 600 and 700 feet length. Such a strip of land there is said to be worth almost \$4,000, while the damage to the small strip left on the north side

of the street is sufficient to make the rest In opening this street the Board of Works assessed benefits and damages and awarded Mrs. Ayres the munificent sum of \$100 damages; but then to offset this, assessed her | The New Rule and the Card Which Is \$100 for benefits. This is simply one way of confiscating private property for public use. Carson & Thompson, attorneys for Mrs. Ayres, will maintain that in the assessment

Above All Things of damages in a street opening the assessment ment mut be the actual value of the property The portion of that actual value to be paid mode-whether it suits them to the property owner is then determined by subtracting from it the amount of benefit or not. A skillful tailor will to the property in opening the street. In this case Mr. Thompson thinks it is quite evident that the damage is much greater er discussing the matter thoroughly, ex- so much as a promise. As they left the than \$100 and that the benefit is not equal pressed themselves in sympathy with the committee rooms Custodian Tim Griffin ac-In any event the street will not be opened

More of Its Interest Methods. The Fort Wayne International Building and Loan Association showed its methods again yesterday in another suit against, Henry H. Moats. In this instance Moats in style that brings out your | borrowed \$4,000 April 29, 1895. He failed to pay any of the payments due the association and now is sued to foreclose the mort-gage he gave to secure the loan. He agreed o pay 40 cents a share on each of forty shares each month as dues, 50 cents a share as premium and interest at the rate of 6 per cent. In one year and thirty-seven days the accumulations, as given in the company's complaint, have made Moats owe \$4,980.15. This is charging interest on \$4,000 at the rate of \$2.89 a day or \$798.98 a year. This reduced to per centum amounts to 19.97 per cent. a year, only .03 of 1 per cent. less than 20 per cent.

Saturday's Usual Divorce Grist. Yesterday was divorce day in the Superior Courts of the county. Five divorces were

granted. Judge Bartholomew separated Cora M. Stilting and William H. Stilting; Mary C. West and Franklin West, and Janet Poulter and Henry H. Poulter. Judge Harvey divorced Orison Hubble and Ger-trude I. Hubble, and George B. H. Baker and Nellie Baker. The case of Frederick Rasemann against Catherine Rasemann was continued until next Saturday after hearing part of the evidence. There were about sixty witnesses present and Judge McMaster wanted to know if there were any more to

The Roby Side of the Case. Winter, Miller & Elam filed their brief on behalf of Caroline Forsythe and others as appellees in the Roby case yesterday. The brief takes very much the same line of argument that was taken by the attorneys for the Roby people in the Lake county court. They contend that the Roby, Forsythe and Sheffield tracks are entirely separate insti-tutions, operated each by different associations, that the men who operate one association have nothing to do with the other association and that their clients are in no wise violating the law of 1895.

Motion to Quash in Linton Cases. Yesterday Smiley N. Chambers filed a motion in the federal court to quash the indictments against Martin Dixon, Frank Martin. Finney Strong, John Wolford, William Wolford and Thomas Wolford. There was no ruling on the motion. They are the men charged with counterfeiting in the use of token money in their stores and mines at Linton. The cases are set for trial June 26.

MUST SEE THE BOOKS

COMPANY, IS IN THE CITY.

Small Stockholders May Mandamus the Management-McKee and Ver-

made by Lew Wallace, jr., on behalf of cer- meet with his hearty support. tain stockholders for a look at the company's books, and yesterday William J. Turner, one of the directors of the company, arrived here getting some information. Mr. Turner was in consultation with President Mason almost all day, but was not in a mood to discuss the affairs of the company for publication. The majority stockholders, who have been shut out of access to the books by the attitude of Director McKee, in declaring that if his crowd should be ousted from the mangement he would apply for a receiver, have about come to the conclusion that they will either see the books and get what information they want forthwith or themselves applay to the court for relief. The matter has | thwarted. therefrom has come to the company's credit hat they are inclined to believe that manlamus or similar proceedings would do no particular harm and might accomplish considerable good. The company is an Indiana corporation, and nobody questions the right of a bona fide stockholder to have access to the affairs of the company whenever he elieves it necessary. It was the current rumor yesterday among the smaller stock-holders here that Mr. Turner came to lay this state of affairs before President Masor and give him the option of permitting Mr Turner to make a thorough examination of the affairs of the company or to answer to mandamus proceedings in court. It is fur-ther understood that President Mason wired to Pittsburg for the stock book of the company and promised Director Turner that when it arrives on Monday he shall have the

portunity of examining the company's If this be true, it foreshadows a change in the management, for representatives of the Philadelphia stockholders claim that if the loating debt of the company is found to be egitimate it will be lifted and McKee will then be asked to keep his promise to step down and out, while if it is found to be not legitimate, proceedings will be brought to at once oust the present management in order that the majority of the stockholders may acquire control of the company.

THE DANGEROUS GRADE CROSSING

It Claims Another Victim in Well filled by the company who delivers in that Digger Speece.

Thomas Speece died at the City Hospital yesterday evening from injuries received early in the morning, when he was struck y a Bee-line train at the St. Clair-street crossing. Before his death Speece partially regained consciousness, but was unable to ount for the accident in any way. His able to account for it. They report that Speece left home Friday afternoon, as he

was torn almost completely off. He was sicians did not expect him to recover. He taken to the police station, where Police was improved yesterday and the doctors the best medicine think he is now out of danger.

The strict of this part tones up the stomach, helps digestion, cures sick and bilious heads acho, as well as constitution and think he is now out of danger.

lound the man's skull was fractured, with evidence of internal injuries, besides several minor external cuts and bruises. He was at once transferred to the City Hospital, and though they realized that their task was almost hopeless, the hospital physicians attempted to save his life. When he was received at the hospital Speece was under the influence of liquor and it is believed that he was struck by the train while wandering around too badly intoxicated to care for himself.

The dead man lived at 67 Ingram street. He leaves a wife and seven children, five of whom are married. Speece was a Knight of Honor and his lodge will probably have charge of the funeral services.

DAVIS TO BE PUT ON THE RACK.

Board of Review Will First Examine the Corporations.

The County Board of Review will begin a week from to-morrow to hear appeals from the assessor's valuation of property in this county. The assessment of corporations will of the State, headed by Jay Hindmann, of be taken up first, and after that is disposed of individual appeals will be heard. "Brother" Davis will be given an opportunity to state whether \$600,000 or \$3,000,000 is the true value of the water company's plant.

READY TO FIGHT SPIT

RAILROAD SUPERINTENDENTS WILL AID STATE HEALTH BOARD.

to Be Handed Expectorators on Railroad Trains.

Secretary Hurty, of the State Board of By request of the Senator from Blackford Health, met with about twenty-five railroad county, the bill was presented in the House, officials, most of them superintendents, yesterday morning and explained to them the

They said the companies were exceedinges, particularly in those for the use of ladies, not only on account of the health feature, but on account of the saving in promised to join with that of Indiana in this work. The rule which the Indiana

"Rule No. 34 .- Spitting on sidewalks, floors of public buildings, in street cars, in railway coaches, in railway stations, and on railway platforms, is prohibited. Any per-son or persons who shall willfully and per-that bill passed." sistently violate this rule shall be subject to the penalties provided in Section 9 of an act establishing a State Board of Health, passed Feb. 19, 1891."

This rule will be properly displayed in all rallway cars and the following card will be handed to those caught expectorating:
"Spitting in public places is prohibited by
the State Board of Health for sanitary and economical reasons, and for the sake of common decency. Every case of consumption of the lungs, nasal catarrh and la grippe is produced, in the person affected, by breathing dried spittle. You may be the

"The disease germ is in the sputum. The affected person spits upon the floor; the spittle eventually dries up, mixes with the dust and is borne in the air. Well persons breathe the disease-laden dust, become in-fected and then wonder how they got sick. "Your spittle is excrement when ejected, and whether it is diseased or not, it should be decently kept out of sight as other excrement is. Over three thousand people died in Indiana in 1895 from consumption, and over five hundred from la grippe, all caused by breathing dried spittle. If the railroads would destroy life in this wholesale way they would be abolished. You are asked to join all good citizens in suppressing the nasty, disease-spreading, spitting habit." This will be signed by the State boards.

On May 12 the Board of Health of New York city adopted the following ordinance, to disobey which is a misdemeanor punishable by fine or imprisonment or both:
"Section 222. Spitting upon the floor
public buildings and railroad cars and ferry boats is hereby forbidden, and officers in charge and control of such buildings, cars and boats shall keep posted in such public buildings and in such railroad cars and in such ferryboats a sufficient number of notices forbidding spitting upon the floors, and janitors of buildings, conductors of cars and employes upon ferryboats shall call the attention of all violators of this ordinance to such notices.'

MR. VONNEGUT'S HIGH RECORD. A Nonpartisan Address to the Ninth

The following nonpartisan address has been issued to the voters of the Ninth school

District Voters.

"Our public schools are the just pride of every citizen, and their present efficiency and high standard should be maintained. The Philadelphia stockholders of the Citizens' Street-railroad Company have grown tired of awaiting the result of the request made by Lew Wallace, ir., on behalf of cersystem, and are satisfied that he will. the public, if he should be re-elected. His record in the past, as a man and as a way to be opposed to ring rule and against

sonal machine. We hope that the present effort to defeat him by raising the question of politics and the use of methods which belong to slum politics, will fail. Mr. Vonnegut is an able, conscientious and honorable gentleman, and in every way a credit to the and we ask the hearty co-operation of ev-ery citizen, regardless of politics, to assist in the same, to the end that the purpose of an interested few to use the public schools and moneys for their personal ends, may be George W. Stubbs,

Henry G. Reger, Wm. H. Barr,. George E. Helm, W. J. Sangston, Gustav G. Stark, David A. Kahn, John B. Pasquier, O. H. Snyder, Daniel Rost, R. H. Richardson, James King, William Kothe, Henry Bauer, Andrew Kramer, Wm. C. Spiegel, J. A. Soltau, J. J. Kramer, Jacob Klein, George Christina, George Hartwig, Chas. Gamerdinger Wm. H. Stocker.

C. S. Darnell, The Powerful Ice Trust.

The price of ice continues to be an all absorbing topic for conversation and complaint. Reports keep coming from various sources of cuts in prices by one company or another. Yesterday the Crystal Ice people denied a report that they are making a cut in the price of their congealed water. They say that people in Cleveland, Chicago, Milwaukee, Pittsburg and other cities are paying 40 cents or more for ice, while Indianapolis citizens are getting theirs for 35 cents. They say that last year, with an investment of \$125,000, they lost money and they cannot afford to do business that way. Ice dealers have now an agreement so that different concerns will not run wagons on the same of delivery, and a telephone order to any one of the dealers in artificial ice will be

Not a City Policeman.

Albert F. Loveless, formerly an agent of the United States Building and Loan Association, was arrested here a few days ago W. E. Awenus, of Princeton, of \$50. Loveless was taken to Princeton and afterward brought back here to furnish bond, in cus-tody of officer Murphy. Murphy is an old man and unacquainted with city life, and allowed himself to be imposed upon by allowed himself to be imposed upon by Loveless, who walked into a saloon and asked Murphy to wait for him. Murphy complied with his request and has not seen

TIM GRIFFIN KNOWS OF A CHAPTER IN STRAWBOARD POLLUTION.

Crawford Fairbanks's Appearance Be fore Last Legislature-Water Company's Chemists Take Samples.

Although everyone knows of the recent bursting of the strawboard company's embankment at Noblesville, and the consequent pollution of White river, few recall that during the last Legislature an attempt was made to secure legislation rendering

such an occurrence impossible. Twenty-four farmers and business men Hartford City, prosecutor for Blackford county, had taken note of the damage which constantly threatened the streams of the State from the strawboard works along their banks, and determined to remedy the matter. Among the number were Alfred Baker and Dr. J. N. Hurty, of this city, Mr. Hindmann, with the help of these two gentlemen drew up a bill, which, if it had passed, would have accomplished their purpose. The bill, of course, made no mention of strawboard or strawboard works, but was directed toward the prevention of nuisance in general. By its terms it was made unlawful not only for factories to drain their refuse into the water courses, but also to maintain a pool or lake such as the one at Noblesville in a locality where any possi-ble accident might occasion the pollution

where it was referred to the proper committee. There it stopped. The twenty-four men who were behind it grew tired of waitnew plan of the health board to prevent | ing and went to the committee in a body spitting on railroad trains. The officials, aft- They were given no satisfaction whatever, and were compelled to leave without even costed them. He not only accosted them, but he laughed at them. When asked the reason of his mirth he told them they had ly anxious to prevent expectorating in coach- had their pains for nothing-that the strawboard men had been before them with the represented by Crawford Fairbanks, a millabor. Attorney-general Ketcham has told lionaire brewer, of Terre Haute, and a printiple the health board that he believes it has told lionaire brewer, of Terre Haute, and a printiple the health board that he believes it has told lionaire brewer, of Terre Haute, and a printiple the health board that he believes it has told lionaire brewer, of Terre Haute, and a printiple to the lionaire brewer, and the lionaire brewer, and the lionaire brewer brewer. Dr. John Hurty was seen in regard to the the authority to enforce the proposed rule. matter last night. Said he: "I most cer-The health boards of Ohio and Illinois have tainly think the committee who had that went into the committee room we were health board will adopt and which was sub- frozen, and then we were fired. I have no mitted to the railroad men yesterday is as doubt Fairbanks was behind the deal, for he knew the bill was meant especially for strawboard manufacturers, and he was certainly heavily interested. Why else should he be closeted with that committee? Let me say, also, that the water company of

"Will there be another attempt to secure such legislation in the future?" "Most certainly there will. We shall try again at the next meeting of the Legislature, and this time I hope it will go through. The present excitement over the Noblesville matter will operate in its favor, and bring people to a realization of the danger that constantly threatens them from a pollution of the water supply."

WATER COMPANY'S CHEMIST Takes Samples from Various Places

and Talks to the Mayor. Professor Hazen, Professor Smith and City Samitarian Ferguson went hunting yesterday for specimens of water. Twelve samples were secured from drinking fountains at various points in the city, from Fall creek, from a flowing well in the water gallery, the river opposite the pumping station, the pump in the pump-house, and from a tap drain in the water works office. These samples were all carefully sealed to be carried off by Professor Smith to his laboratory at Beloit College for a careful tech-

nical and sanitary analysis. Dr. Ferguson saff last night the analysis was for the purpose of guiding the water company in its work of reform and that Professor Smith would forward the results of his work in a few weeks. "I cannot say what will be done by the water works in the way of improvement," he said, "but whatever is done cannot be completed short of a year's time. It is a question which can't be settled in a mo-

ment, and people must be patient."

Yesterday Dr. Hazen had a conference with Mayor Taggart and the Park Commissioners. The plan suggested by Mr. Clay-pool to use Fall creek as a source of water supply was discussed, but Mr. Hazen did not express an opinion on that point, preferring to go over the field before committing him-

Dr. Hazen last night returned to his hotel very late, and then refused to see anyone. According to the examinations of the water made yesterday there is still a gradual improvement noticeable. The nitrites are dis-appearing rapidly, but the test which shows the presence of putrid animal matter still indicates that the water is unfit for use. Some persons have uncovered several of the drinking fountains which were closed by the Board of Works when the pollution of the water was discovered. The board had them closed again. Notice will be sent out as soon as the Board of Health decides that the water is again fit for use, and the fountains will be uncovered.

Commission Is Needed. At a meeting, yesterday afternoon, of the directors of the Commercial Club the follow-

"Resolved, That the Commercial Club believes the ownership by the city of Indian-apolis of a plant for furnishing its people with a plentiful supply of pure water is of the greatest importance, and that proceed-ings for securing the same should be undertaken without unnecessary delay.
"That in the opinion of the club it would be advisable to secure the services of a commission of expert engineers to report on the needs of the city and on the practicabil-ity and cost of furnishing an abundant supply of pure water.

"That the president is authorized to appoint a special committee of seven to tender the services of the club to the city authorities and to co-operate, if desired, in such steps as may be taken to secure these results." German Lutheran Orphans, The German Lutheran Orphans' How will have its annual celebration next Sun by at the home, on East Washington street. Rev E. W. Scheips, of Peru, will deliver the morning address and Rev. Mr. Seul, president of the Orphan Society, will read the yearly report in the afternoon. The choirs of the German Lutheran, St. Paul and Trinity churches will render the music. Excursions will come in from Fort Wayne, Tipton, Arcadia, Lafayette and probably Cincinnati. Forty-two children are at the home and five are with responsible families.

Fire Force Appointments. At its meeting yesterday morning the Board of Public Safety made the following fire force appointments to take the place of those recently appointed who failed to pass the required medical examination: Maurice F. Healey, Democrat; Louis A. Saylors, Republican. Substitutes: G. J. Niehaus, John McGinty, V. H. Johnson, Democrats, and J. E. Stiegelmeyer, Republican. The appointments were made subject to medical examination and sixty days' probation.

Changes in the Militia. Capt. Thomas J. Louden, of Company H. First Regiment, I. N. G., stationed at Bloomington, has been promoted to battalion ma-jor as the result of a competitive examina-

The Adjutant-general yesterday accepted the resignation of Lieutenant Christian Mc-Mahon, of Company E, Third Regiment. Weather and Bad Water the Cause of Much Sickness.

A prominent physician was interviewed in reference to the water scare in this city, and said that persons should not blame the water for all ills, that there was always much sickness this time of the year, due principally to eating strawberries and par-taking of cold drinks on an overheated taking of cold drinks on an overheated stomach. The doctor said that where persons suffer from headaches, indigestion or billiousness, they should avoid iced drinks of all kinds; should take some mild medicine to help digestion and act on the liver. The best medicine he ever used was the new pill made by the Denison House druggist (known and sold by all the leading druggists of the city and suburbs as Haag's Liver Pill.) This pill tones up the stomach,
